Chief Investigator: Mr Toby Richards

Welcome to the next edition of the PREVENTT e-bulletin. We hope these will keep you better updated on progress of the trial and any other notices.

### **PREVENTT Investigators Meeting**

Thank you to everyone who came to the Investigators Meeting on 9<sup>th</sup> May. It was great to meet you all and we are looking forward to working with all centres more closely in the coming months as we start to set up sites and recruitment begins. There was plenty of discussion during the course of the day and all the questions and answers will be available on the PREVENTT website soon. A big thank you also to Rebecca and Laura who planned the meeting - I'm sure you will agree that it was a well organised event!

### **New member of staff**

The PREVENTT team has a new member of staff, Rebecca Swinson (Becky) who will be working closely with sites in the coming months, answering your queries and helping to set up the study at centres. If you have any questions or queries, you can contact Becky directly at [Rebecca.Swinson@lshtm.ac.uk](mailto:Rebecca.Swinson@lshtm.ac.uk)

### **Amendment 1**

We have received ethics and MHRA approval for amendment 1 and we will therefore shortly start to transfer SSI forms to sites. We will also be liaising with R&D departments to ensure that CTSA's are reviewed and signed in good time. If there are any changes to staff who will be involved in any of these processes, please get in touch with the PREVENTT office.

### **PREVENTT Website**

Our PREVENTT trial website is now up and running. There is already lots of useful information on there and we will be continually adding more. Please take a look and let us know if there is anything else you would like to see on it.

You can access the website by going to <http://preventt.lshtm.ac.uk/>

## **FAQs**

*Q. In relation to hospital stays, what counts as a day?*

**A.** Any portion of any day will count as one day. For example, if a patient is admitted in the morning and is discharged 5 hours later, their stay will count as 1 day. If a patient is admitted on one day and discharged the next, their stay will count as 2 days

## **Protocol**

Copies of the protocol are available on request.

If you have any ideas or questions for future e-bulletins, please send them in.

Best wishes

Becky
