

PREVENTT News

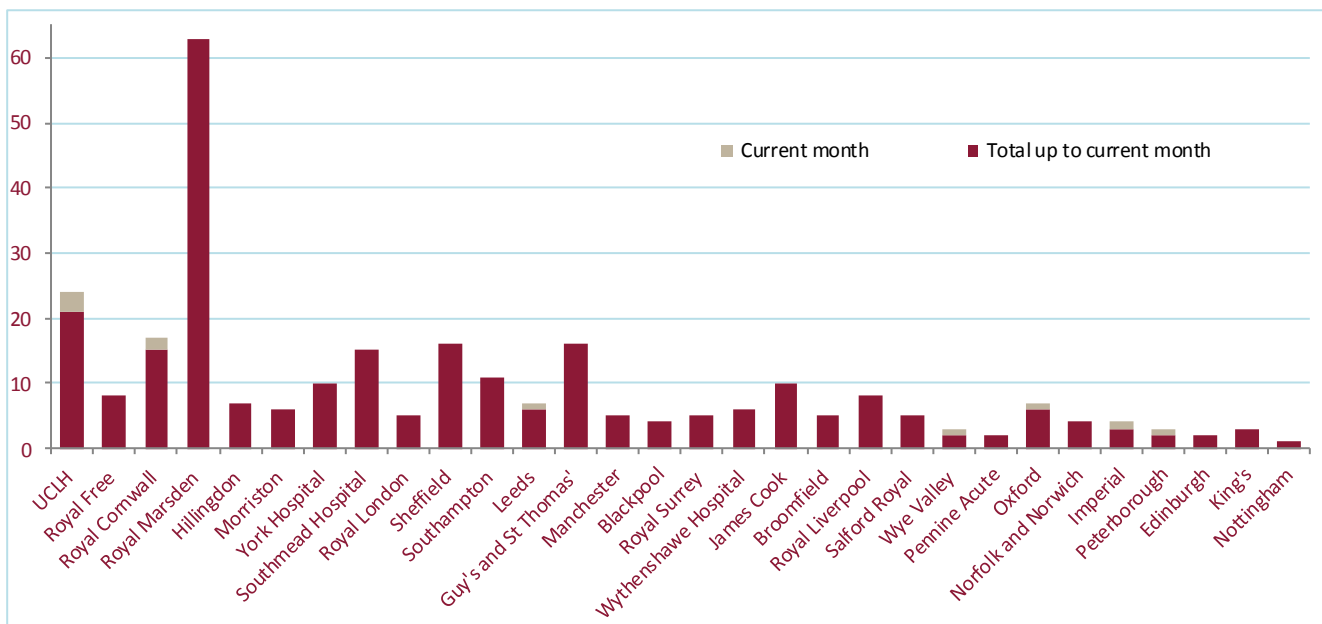

Welcome to the newsletter and the PREVENTT team hope you had a good summer.

During August, HRA and REC approval were granted for the recent protocol amendment. Once MHRA approval is in place, the new documentation will be sent out to sites for use. This amendment also includes the new patient leaflet. If you have any questions about the amendment, please contact Becky (rebecca.swinson@lshtm.ac.uk).

If you have not done so already, please RSVP to the investigator meeting which is being held on Thursday 29th September at the Wellcome Trust in London. Please email preventt@lshtm.ac.uk for further information. Standard class travel will be refunded and lunch will be available. The team look forward to seeing you all there!

PREVENTT Recruitment – 296 Patients Randomised

Thank you to all sites who have recruited patients during August. We had another great month with 10 patients randomised, meeting our monthly target. Overall 7 sites recruited at least one patient with UCLH recruiting three patients and the Royal Cornwall recruiting two. We have nearly reached 300 patients which is a fantastic achievement.

PREVENTT Raffle Winner

Congratulations to Alwyn, Cath and the team at Leeds who are the winners of the August raffle. We hope you enjoy your treats! Another prize is available for September so keep screening and recruiting to be in with a chance. This will be the last raffle in the current format and following the investigator meeting, there will be a few changes! You will need to read the September newsletter carefully to be in with a chance!
